ABOUT ME

TOM ROFF – COMPUTER SCIENCE MAJOR AT DAVIDSON COLLEGE

Hi! My name is Tom Roff, a senior majoring in Computer Science. I grew up in Houston, Texas in a family of 7. Growing up, my principle hobbies were video games and 3D art, but now I've branched out to enjoy hiking, music, and baking. I enjoy playing soccer and basketball with friends, though I can't say I'm any good at them. I hope to work in virtual effects or games after I finish at Davidson, but I can literally never ever predict the future, at all. So who knows where I'll end up.
